Smoothies

tetabóy Smoothies are the freeze dry forms of fresh fruits premixed with excellent recipes.

It is presented in practical packages for the use of you professionals in a way that can be stored at room temperature.

tetabóy Smoothies can be transported and stored without the need for cold chain.

tetabóy Smoothies will enable you to offer your guests and customers unforgettable experiences with more intense fruit flavours.

tetabáý smoothies are delivered to you as a system with pre-mix mixes, recipes, training videos, ready-made menus and the necessary equipments.

tetabáý pre-mix smoothie and milkshake mixes are fruit itself. Contains no preservatives, colouring or flavouring chemicals.

With tetabáý Smoothies, your café will no longer have to purchase fresh and frozen fruit. Your energy costs for storing frozen and fresh fruits will be zero.

Cafes that use **tetaboy** Smoothies, will be able to offer their customers smoothies made from any fruit, regardless of the season. There will be a simple and uninterrupted supply chain for the delivery of smoothie mixes.

Ready-made menus for smoothies and milkshakes will be offered to our valued users in a variety of formats.

You can have the menus in the style and colour of your choice in accordance with the format of your cafe. Don't waste your time on the tedious process of creating and designing your own menu.

The recipe file that your bartenders will use is easy and practical to use. You can make tetabay Smoothies with staff who have only the most basic experience of making them. No special experience is needed. tetabay makes it easy to prepare smoothies and milkshakes and always promises the highest quality and consistent taste.

For your valuable forecourt café facilities, our specially designed Smoothie Refrigerators will attract the attention of your customers and generate high sales. The taste of real fruit will always be a unique experience for your guests.

Freeze Dry

With the freeze dried premixed smoothies in each box (40x40x25) you may prepare 250 glasses of smoothies. The packed and pre-portioned freeze dried smoothie premixes, could be stored in room temperature.

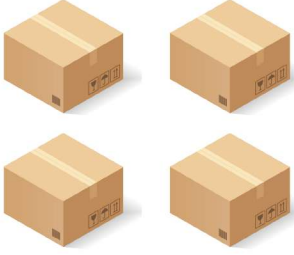

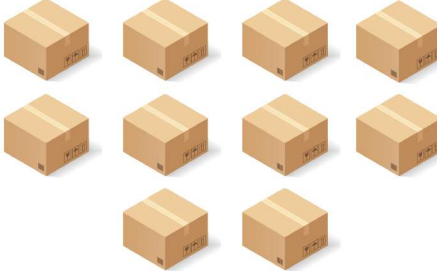

Fresh

Fresh Fruits that needs to be kept for 250 glasses of smoothie, needs 50 kg capacity deep freezer. This means that if you are selling 50 glasses of smoothies everyday, in your deep freezer may keep only 5 days stock.

For every 10 cubic metres of frozen room volume you use for frozen fruits, you will need 1 cubic metre of standard room temperature storage space. Thus, your storage space will be reduced by 90% and you will not need a cold room.
